WE KONGSI
Anyone Can Afford Healthcare

WeCare

Program Guideline

NOVEMBER 2026

Administered by Kita Kongsi Sdn. Bhd.

About WeCare

Everyday Healthcare, Covered

Most of what sends a Malaysian to a clinic is not serious. A fever before a shift, a child with a sore throat, a stomach upset on a Sunday, a rash that will not settle. None of it is dangerous, but all of it costs time and money, and a GP visit with medicine rarely comes back under fifty ringgit.

WeCare is built for exactly that. A Member gets a licensed doctor on the phone as often as they need, and an allowance of care that covers both prescribed medicine and cashless visits to a panel GP clinic. No claim forms, no reimbursement, and no waiting period before cover begins.

These Guidelines are here so that every Member knows exactly where they stand — what the plan covers, how to use it, and what to expect from each party. We have tried to keep them short and plain. Where something is not covered, we say so clearly rather than leaving it to be discovered at a clinic counter.

WeCare is available to existing We Kongsi members and to new members registering on the We Kongsi platform. Each Member is enrolled as an individual subscriber with their own entitlement. There is no dependant enrolment, and entitlements are not pooled or shared between Members.

Who's Behind WeCare

WE KONGSI
Anyone Can Afford Healthcare

We Kongsi

We Kongsi distributes the services through the WeCare programme and provides the platform on which Members register, pay and manage their membership. We Kongsi is not a healthcare provider and does not deliver medical care.

MiCARE

MiCare

MiCare is the healthcare access platform for the programme. MiCare provides the MyMed app used to access teleconsultation and to manage e-prescription and medication services, and operates the medical hotline Members call for anything clinical. Anything to do with the member account itself — registration, payment, account status — is handled by We Kongsi customer service. Both are set out in Section 7.

DISCLAIMER

IMPORTANT NOTE: WE KONGSI (KITA KONGSI SDN. BHD.) DISTRIBUTES AND ADMINISTERS THE WECARE PLAN. WE KONGSI IS NOT A HEALTHCARE PROVIDER. IT DOES NOT PROVIDE MEDICAL SERVICES, ADVICE, DIAGNOSIS, TREATMENT OR MEDICATION, AND DOES NOT EMPLOY, ENGAGE OR SUPERVISE ANY DOCTOR, PHARMACIST OR CLINIC.

ALL CLINICAL SERVICES UNDER WECARE ARE PROVIDED BY HEYDOC HEALTH AND/OR ITS NETWORK OF DULY LICENSED HEALTHCARE PRACTITIONERS, CLINICS AND PHARMACIES, AS APPLICABLE. EACH HEALTHCARE PROVIDER IS RESPONSIBLE FOR THE CLINICAL CARE, PROFESSIONAL DECISIONS, PRESCRIPTIONS AND MEDICATION DISPENSING UNDERTAKEN BY THEM. TO THE EXTENT PERMITTED BY LAW, WE KONGSI'S RESPONSIBILITY IS LIMITED TO THE DISTRIBUTION AND ADMINISTRATION OF THE MEMBERSHIP, SUBJECT TO ITS OBLIGATIONS UNDER THE APPLICABLE AGREEMENT AND APPLICABLE LAW.

WECARE IS NOT AN INSURANCE POLICY, TAKAFUL CERTIFICATE OR MEDICAL CARD. IT IS A PAID SUBSCRIPTION TO AN OUTPATIENT HEALTHCARE SERVICE. NO RISK IS UNDERWRITTEN AND NO SUM IS INSURED. NEITHER WE KONGSI NOR THE APPOINTED HEALTHCARE PROVIDER IS AN INSURER OR TAKAFUL OPERATOR.

WECARE PROVIDES TELECONSULTATION, PANEL GP CLINIC VISITS AND PRESCRIBED MEDICATION FOR THE COMMON ACUTE CONDITIONS LISTED IN SECTION 5, SUBJECT TO THE CARE EPISODE ENTITLEMENT AND THE RM40 PER VISIT CAP SET OUT IN SECTION 4. IT DOES NOT COVER HOSPITALISATION, SPECIALIST CARE, CHRONIC DISEASE MANAGEMENT, SURGERY OR EMERGENCY TREATMENT. ALL TREATMENT REMAINS SUBJECT TO CLINICAL ASSESSMENT BY THE ATTENDING PRACTITIONER.

TELECONSULTATION IS INTENDED FOR NON-EMERGENCY MEDICAL CONSULTATION AND GENERAL HEALTHCARE SUPPORT ONLY, AND IS NOT A SUBSTITUTE FOR IN-PERSON CONSULTATION WHERE ONE IS CLINICALLY NECESSARY. A MEMBER EXPERIENCING A MEDICAL EMERGENCY MUST GO IMMEDIATELY TO THE NEAREST CLINIC, HOSPITAL OR EMERGENCY DEPARTMENT.

THE AVAILABILITY OF WECARE DEPENDS ON THE APPOINTED HEALTHCARE PROVIDER CONTINUING TO PROVIDE THE SERVICES. TO ENSURE THAT ALL MEDICAL NEEDS ARE FULLY COVERED, MEMBERS ARE ENCOURAGED TO CONSULT A LICENSED INSURANCE OR TAKAFUL PROVIDER FOR PROTECTION BEYOND THE SCOPE OF THIS PLAN

WeCare is a healthcare subscription, not a contract of indemnity.

Members pay for access to a defined set of outpatient services. They are not insured, and no sum is payable to a Member in cash under any circumstances.

1. Account Ownership

A. Who is an Account Owner

An Account Owner is the person who takes the initial step to open a We Kongsi account and create the membership. The Account Owner holds the login credentials, pays the subscription, renews the membership and is the person We Kongsi corresponds with.

An Account Owner is not automatically covered. Cover belongs to the Member. In most cases the same person is both — someone registers, then enrols themselves as the Member — but the two roles remain distinct, because an Account Owner may also create and pay for a membership for someone else.

Account Owner	Member
Holds the account ● Owns the login and password ● Pays the subscription ● Enrols the Member ● Renews or ends the membership ● Is the person We Kongsi corresponds with	**Holds the cover** ● Is the person identified by NRIC ● Consults the doctor ● Attends the panel clinic ● Draws the Care Episode ● Is bound by these Guidelines

B. Enrollment: How to become an Account Owner

Registration is completed on the We Kongsi platform at our official website registration page. A working mobile number and an internet or data connection are required, as the mobile number is verified by SMS.

Complete the profile with the following information:

- Full name as per NRIC
- A valid mobile number (for the SMS verification code)
- Email address
- Home address
- Generate a password

Once registered, the Account Owner may log in again to verify the account and proceed to enrol a Member.

C. Eligibility: What are the Requirements

To qualify as an Account Owner, an individual must meet the following requirements:

- **Age Eligibility —** Must be at least 18 years old. Age is defined “as of last birthday”.
- **Open to All —** Available to all Malaysians of any ethnicity and religion residing in the country who meet all eligibility criteria.
- **Health Profile Status —** No health requirement needed to be eligible.
- **Payment —** A valid payment method for the subscription chosen.

D. Entitlement: What are my Rights

Full Access to Information — Account Owners have full rights to log in and view the membership, its status, the subscription period in force, the Care Episodes released and the Care Episodes used. All information regarding the plan will be presented with full disclosure and accuracy from the Administrator.

Freedom to Stop — An Account Owner may end the membership at any time. There is no notice period and no termination charge. Fees already paid are not refunded — see Section 3.D.

Freedom to Return — A membership that has ended may be restarted at any time on payment of the reactivation fee and the subscription for the new period. There is no waiting period — see Section 3.E.

2. Membership

A. Who is a Member

A Member is the person covered by WeCare. A Member is enrolled by an Account Owner, is identified by NRIC, and has agreed to abide by the requirements of these Program Guidelines. Only a Member may consult a doctor, attend a participating panel clinic, receive a prescription and draw a Care Episode.

Every Member under WeCare is enrolled as an individual subscriber with their own individual entitlement. There is no dependant enrolment under this plan, and entitlements are not pooled or shared between Members.

Every Member is managed by the Account Owner, who is responsible for keeping the subscription paid and the Member's details accurate. As a Member, it is important to review and understand the terms of the plan prior to enrollment and participation.

B. Enrollment: How to become a Member

A Member must be enrolled by an Account Owner. Only the Account Owner has access and authority to enrol a Member. To enrol, the following information must be provided:

- Full name as per NRIC
- NRIC number
- Relationship with the Account Owner
- Agreement to the Terms & Conditions and these Program Guidelines

Before the membership is activated, the Account Owner is shown a confirmation screen setting out the plan, the amount payable and the period it covers, and must confirm. Cover begins from the moment payment is confirmed.

C. Eligibility: What are the Requirements

To qualify as a Member, an individual must meet the following requirements:

- **Age Eligibility —** No age restrictions.
- **One Membership per NRIC —** An NRIC may hold only one active WeCare membership at any time.
- **Open to All —** Available to all Malaysians of any ethnicity and religion residing in the country who meet all eligibility criteria.
- **Health Profile Status —** No health declaration and no health screening are required.

> **There is no waiting period.**
>
> WeCare has no phase-in period. Cover for the conditions listed in Section 5 begins on the day payment is confirmed, both for a new membership and for a membership restarted after termination. There is also no pre-existing condition limitation, because the plan is limited to the common acute conditions listed — chronic conditions are outside its scope altogether.

D. Member Status

A WeCare membership is in one of three statuses at any time. The Account Owner can see the current status in the app.

Status	What it means
Active	Payment is up to date and the subscription period is running. The Member is covered, may consult a doctor at any time, and may use the Care Episodes released for the current quarter together with any accumulated from earlier quarters in the same subscription year.
Suspended	A payment has fallen due and has not been received. The Member is not covered, cannot consult a doctor and cannot attend a participating panel clinic. The Member has twenty-six (26) days from the due date to settle the amount outstanding. Payment received within that period restores the membership immediately, with the entitlement intact.
Terminated	Twenty-six (26) days have passed from the due date without payment, or the Account Owner has ended the membership. All accumulated Care Episodes are forfeited.

A membership may also be terminated by the Administrator where there has been a breach of these Guidelines as described in Section 2.E.

E. Obligations & Rights

What a Member is entitled to

- **Unlimited teleconsultation —** Speak to a licensed doctor as often as needed, daily from 9:00 AM to 10:00 PM, including weekends and public holidays, at no charge.
- **Two Care Episodes every quarter —** One Medicine Episode and one Clinic Visit Episode. Unused episodes stay available for the rest of the subscription year, up to a balance of eight.
- **Cashless panel clinic access —** Attend a participating panel GP clinic directly, without a referral and without consulting by phone first.
- **Pharmacy walk-in —** Collect selected over-the-counter medicine at a participating pharmacy without a teleconsultation.
- **Nationwide fulfilment —** Collection at partner pharmacy outlets nationwide, or delivery to the Member's address.
- **Full disclosure —** Clear information on status, entitlement, Care Episodes used and what is and is not covered.
- **Data protection —** Personal and medical information handled in accordance with the Personal Data Protection Act 2010.

What a Member is responsible for

- **Honest information —** Provide accurate personal and medical information. Care is given on the basis of what the Member tells the doctor.
- **Personal use only —** A membership and a Care Episode are personal to the Member. They may not be sold, transferred, shared or used for another person.
- **Follow clinical advice —** Take medication as prescribed, and attend a clinic or hospital in person where the doctor advises it.
- **Use the benefit properly —** Do not use teleconsultation for emergencies, and do not request medication that is not part of the treatment of an included condition.
- **Pay what falls outside —** Any amount above the RM40 cap, and anything not included under Section 5, is borne by the Member.
- **Keep payment current —** Keep the subscription paid and the payment details valid, so the membership does not fall into suspension.
- **Keep details current —** Inform We Kongsi of any change in mobile number, address or email.

Misuse of the benefit — including using another person's membership, presenting a membership at a clinic on behalf of someone else, or giving false information to obtain medication — may result in the membership being terminated without refund and the Member being barred from the plan.

3. Fees & Payments

A. What WeCare Costs

WeCare is paid in advance. There is no registration fee and no administration fee.

Fee	Amount	When it is payable
Quarterly subscription	RM 45	At sign-up, then every three (3) months
Annual subscription	RM160	At sign-up, then every twelve (12) months
Reactivation fee	RM30	Once, when restarting a terminated membership

These are the only subscription amounts a Member pays. The only other cost that can arise is the surplus above the per-visit cap in Section 4.D, and anything not included under Section 5.

B. Choosing Quarterly or Annual

Both options give the same cover and the same entitlement; the difference is only how often payment falls due. Members may switch between the two at the start of a new subscription period.

C. Renewal

A subscription renews at the end of each paid period. The amount falls due on the day the current period ends, and cover continues uninterrupted where payment is received by that day.

Where payment is not received, the membership moves to Suspended and the twenty-six (26) day period described in Section 2.D begins.

On renewal the Care Episode balance resets; unused episodes do not carry over (Section 4.D).

D. Fees Are Not Refundable

All fees paid under WeCare are non-refundable. A Member who ends their membership before the end of a paid period is not entitled to a refund of any part of the amount already paid. The same applies where a membership is terminated for non-payment or for breach of these Guidelines.

Cover remains available for the remainder of a period already paid for, unless the membership is terminated for breach.

E. Reactivation

A terminated membership may be restarted at any time, with no waiting period and no health declaration.

To restart, the Account Owner pays:

- the reactivation fee; and
- the subscription for the new period, quarterly or annual.

Cover begins again on the day payment is confirmed. Accumulated Care Episodes are not restored: the Member begins a new subscription year with the current quarter's release only.

4. Using Your Benefit

A. Telemedicine

Teleconsultation is the front door to WeCare. A Member opens the MiCare MyMed app, describes the problem, and speaks to a licensed medical practitioner. There is no appointment, no queue number and no charge.

Telemedicine	Detail
Teleconsultation Hours	Daily, 9:00 AM to 10:00 PM, including weekends and public holidays.
Number of consultations	Unlimited, at no charge. Consultations for advice, triage, follow-up or referral do not draw a Care Episode.
Medicine cut-off	Medication processing has a daily cut-off of 5:00 PM. A prescription issued after the cut-off is processed the following day.
Not for emergencies	Teleconsultation is for non-emergency consultation and general healthcare support only. In an emergency, go immediately to the nearest clinic, hospital or emergency department.

B. Walking Into a Pharmacy

A Member does not have to consult a doctor first in order to get medicine. They may walk into any participating pharmacy, describe the problem to the pharmacist, and be supplied with selected over-the-counter medicine for minor ailments, together with basic health advice. No appointment and no teleconsultation are needed.

A pharmacy walk-in and teleconsultation share the same Medicine Episode. A pharmacy walk-in uses the quarter's Medicine Episode — the same one that is used when medicine is dispensed after a teleconsultation. It is one or the other, not both. This is explained in Section 4.C.

Controlled and prescription-only medicines cannot be supplied this way. Those medicines may only be dispensed against an e-prescription, and an e-prescription can only be issued by a doctor. A Member who needs one must speak to a doctor via telemedicine through the MiCare MyMed app first.

> **Our advice: speak to a doctor first.**
>
> A pharmacist can help with minor, familiar complaints, but they cannot examine a Member or diagnose a condition. Teleconsultation is unlimited and free, it does not use a Care Episode unless medicine is dispensed, and it means the symptoms are properly assessed by a licensed doctor before anything is taken. Where a Member is unsure what is wrong, or the problem is new, worsening or has lasted more than a few days, we would always encourage a consultation first.

C. Your Two Care Episodes Each Quarter

Every quarter, two (2) Care Episodes are added to the Member's balance — one of each type. The two types are different and cannot be exchanged for one another.

Each quarter you receive	What it can be used for
1 × Medicine Episode *Getting medicine without going to a clinic*	• Medicine dispensed after a teleconsultation, OR • Pharmacy walk-in at a participating pharmacy
1 × Clinic Visit Episode *Seeing a doctor in person*	• A visit to a participating panel GP clinic *Covers the visit and any medicine given during it. No referral needed, and no teleconsultation needed first.*

> **Teleconsultation on its own is always free.**
>
> Speaking to a doctor costs nothing and uses no Care Episode. An episode is only drawn at the moment treatment is actually provided — when medicine is dispensed, when a pharmacist supplies medicine under PharmacyCare, or when a Member attends a panel clinic.

D. How the Balance Builds

One of each type is released at the start of every quarter. An episode that is not used in the quarter it is released is not lost at the end of that quarter — it stays in the Member's balance and can be used later in the same subscription year. For a Member who uses nothing, the balance builds like this:

Quarter	Released that quarter	Balance in hand
Quarter 1	1 Medicine + 1 Clinic Visit	1 + 1
Quarter 2	1 Medicine + 1 Clinic Visit	2 + 2
Quarter 3	1 Medicine + 1 Clinic Visit	3 + 3
Quarter 4	1 Medicine + 1 Clinic Visit	4 + 4 (the maximum)
Next year, Quarter 1	Balance resets — 1 Medicine + 1 Clinic Visit	1 + 1

Care Episodes do not carry forward into the next subscription year. The most a Member can hold at any time is four Medicine Episodes and four Clinic Visit Episodes — eight in total, being the full year's release. Any episode still unused when the subscription year ends lapses at that point and has no cash or carry-over value.

On renewal the balance starts again at zero and builds from Quarter 1 of the new subscription year in the same way. Accumulated episodes are also forfeited if the membership is terminated.

E. Medicine, Delivery and the RM40 Cap

Where a doctor issues an e-prescription, the medicine is either delivered to the Member's address or made ready for collection at a participating pharmacy outlet. Delivery and collection are available nationwide.

Every Care Episode is subject to a cap of RM40 — Medicine Episodes and Clinic Visit Episodes alike. The cap covers the consultation, the medicine prescribed and its delivery. Where the total comes to RM40 or less, the Member pays nothing. Where it exceeds RM40, the surplus above RM40 is borne by the Member and is payable before the medicine is released or at the clinic counter.

Example	Total cost of the visit	Member pays
Within the cap	RM28	Nothing
At the cap	RM40	Nothing
Above the cap	RM55	RM15

The doctor, the pharmacist or the clinic will advise the Member where a visit or prescription is likely to exceed the cap, and the Member may decline it. A Member is never charged without being told first.

F. What WeCare Does Not Include

The following are outside the scope of the plan:

- **Specialist care —** Specialist consultation and specialist clinic visits are not included.

- **Chronic disease management —** Chronic or long-term medication, refills and repeat prescriptions are not included.
- **Hospitalisation —** Treatment requiring admission, day-care or hospital-level care is not included.
- **Advanced investigations —** CT, MRI, PET and DEXA scans and comparable imaging or investigations are not included.
- **Screening and vaccination —** Preventive health screening, vaccinations and medical check-ups are not included.
- **Non-medical items —** Vitamins, supplements, cosmetic and aesthetic items and services are not included.
- **Usage beyond entitlement —** Any visit or treatment once the Care Episode entitlement for the subscription year has been used.

Anything not included, and any usage beyond the Care Episode entitlement, is borne by the Member.

5. Conditions Included

A. Conditions Included

WeCare covers teleconsultation, panel GP clinic treatment and, where clinically appropriate, prescribed medication for the following twenty-one (21) common acute conditions:

1. Cough, Cold or Flu	8. Sore Throat	15. Fever or Muscle Aches
2. GERD or Gastritis	9. Stomach Ache or Bloating	16. Nausea or Vomiting
3. Infectious Gastroenteritis or Diarrhoea	10. Headache or Migraine	17. Dizziness or Giddiness
4. Eczema or Dermatitis	11. Gout	18. Joint Pain (Osteoarthritis)
5. Joint Sprain	12. Urinary Tract Infection (uncomplicated, female)	19. Dysmenorrhea
6. Mouth Ulcer	13. Bacterial Conjunctivitis	20. Hordeolum (Eyelid Infection)
7. Ringworm or Fungal Skin Infection	14. Insect Bites	21. Head Lice

All treatment remains subject to medical appropriateness and clinical assessment by the attending licensed practitioner. A doctor may decline to treat remotely where they are not confident of providing safe care at a distance, and will refer the Member to a clinic or hospital instead.

B. Conditions Not Included

WeCare does not cover chronic diseases, serious or red-flag symptoms, cases requiring specialist care, or any condition where the attending doctor is not confident of providing safe care remotely. The following are examples and the list is not exhaustive:

- Asthma and COPD
- Hypertension, hyperlipidaemia and diabetes mellitus
- Cancer and oncological conditions
- Heart disease, including ischaemic heart disease
- Chronic dermatological conditions, for example corns, warts and psoriasis
- Complicated or recurrent urinary tract infections, and all urinary tract infections in men
- Infection following a procedure, for example abscess or wound infection
- Traumatic injuries, open wounds and fractures
- Serious or red-flag acute conditions, for example severe chest pain, loss of consciousness, neurological deficit or gastrointestinal bleeding
- Any unspecified or undifferentiated illness that requires further evaluation

C. Other Exclusions

In addition to the conditions above, the following are excluded under WeCare:

- Any service or treatment not expressly included within the Care Episode and the included conditions set out above
- Usage exceeding the Member's Care Episode entitlement for the subscription year
- Specialist clinic visits
- Chronic disease management and chronic or long-term medication, including refills and repeat prescriptions
- Advanced investigations, meaning CT, MRI, PET and DEXA scans and any other imaging or investigation of comparable complexity or cost requiring hospital-level or specialist diagnostic facilities
- Treatment requiring hospitalisation, day-care or specialist and hospital-level care
- Vitamins, supplements and any medicine or product not forming part of the treatment of an included condition
- Cosmetic, aesthetic and non-medical items and services
- Preventive health screening, vaccinations and medical check-ups
- Any treatment or medication for a condition that is not an included condition

Any service that is not included, or any condition not listed as an included condition, but accessed by a Member shall be borne by the Member.

6. Decision Making

A. Program Guidelines

These Program Guidelines govern the WeCare plan. They set out what is covered, what is not, and what is expected of the Account Owner and the Member. By enrolling and paying, the Account Owner and the Member agree to be bound by them.

Where these Guidelines and any marketing or promotional material differ, these Guidelines prevail. Where these Guidelines and the underlying service terms agreed between We Kongsi and its appointed healthcare provider differ in respect of the clinical scope of the plan, the underlying service terms prevail, and We Kongsi will correct these Guidelines accordingly.

B. Amendment of Guidelines

We Kongsi may amend these Guidelines from time to time for clinical, regulatory, operational or commercial reasons, including where the appointed healthcare provider varies the underlying service. Any material change affecting what is covered, or any change in fees, will be communicated to Account Owners in writing, whether digitally or otherwise.

A change takes effect from the start of the next subscription period. A period already paid for is honoured on the terms and at the price in force when that payment was made

C. Disputes & Appeals

Where a Member disagrees with a clinical decision, a prescription, or a charge at a clinic or pharmacy, the matter should first be raised with the MiCare hotline, which handles all clinical and medicine matters. Where a Member disagrees with a decision about the membership itself — a payment, a status change, a suspension, a termination — the matter should be raised with We Kongsi customer service.

Where the matter is not resolved, the Account Owner may submit a written appeal to We Kongsi. Appeals are reviewed by the Administrator and a written decision is issued. The Administrator's decision on eligibility and on the application of these Guidelines is final.

D. Withdrawal of the Plan

WeCare may be varied, suspended or withdrawn. Should the plan be withdrawn, Members will be given written notice and any subscription period already paid for will be honoured to its end, or the unused portion refunded where cover cannot be provided for the remainder of that period.

7. Who to Contact

Who to contact	For
MiCare Hotline **1800 88 7940**	• Teleconsultation — booking, access, technical issues • Doctors, diagnosis and prescriptions • Panel clinic visits and anything at the clinic counter • Medicine collection and delivery • The RM40 cap and any surplus payable
We Kongsi Customer Service **010-8768760**	• Registration and login • Account Owner and Member details • Payment, renewal and reactivation • Membership status, suspension and termination • Care Episode balance and entitlement

> **In a medical emergency, do not call either number.**
> Go immediately to the nearest clinic, hospital or emergency department, or call 999. Teleconsultation is not for emergencies.

WeCare is a We Kongsi programme, distributed and administered by Kita Kongsi Sdn. Bhd. (Company Registration No. 202201046676 (1492373-D)). The healthcare services under the plan are provided by We Kongsi's appointed healthcare provider and its network of independent practitioners, clinics and pharmacies. Access is supported by the MiCare MyMed platform.

These Program Guidelines are updated as of November 2026. Thank you for being part of the We Kongsi community.
